ONLINE BANKING 101

What is it?

Online banking is using a computer or mobile device to check your account activity and/or balance, pay bills and transfer money. With Washington State Bank you can sign up for Online Banking on our website, or with a staff member in person. With our mobile app, you can check your account activity wherever you are!

Advantages

- Quick and Easy access to your accounts 24 hours a day
- Transfer between accounts right from your computer
- No more waiting for statements to reconcile your accounts
- Check images available immediately for you to review from your computer the instant they clear through the bank
- ITS FREE!
- No more having to write checks, pay for stamps, mail your bills- we'll do all of that for you!

Getting Started

So you've decided that online banking is worth it. What's next? You can go to our website, and click on "Sign Up For Online Banking Here" in the top corner and fill out the application shown on the next webpage. If you don't feel comfortable with that, you are more than welcome to stop into any of our three locations and a Retail or Personal Banker will be happy to assist you.

Troubleshooting

Where do I go to access my online banking?

-Head over to our website www.washsb.com and look for the box in the top right corner that says "User ID". This is where you will login to the system.

What is my User ID?

-If you have not previously logged in, you will use the username given to you by the bank. Otherwise your User ID is whatever you set it to previously.

My User ID isn't working. Now what?

-Have you logged into your account in a while? For added security, after 3 months of inactivity your online system goes dormant and you will not be able to log in. Call your bank branch if you are having this issue.
